### Back to the future

The passage of time and effects of both golfers and weather guarantee that no course will stay exactly the same across the decades. But should course designs be protected and, where necessary, faithfully restored? Or should they be updated to meet the apparent needs of today?

### Designing in digital

Do computer-aided design packages and 3D visualisations make for more efficient and better golf design, or does too much drawing stifle creativity? Mark Alexander investigates

### 06 Tee Box

Our regular digest covers: progress on the new seventh course at St Andrews; planning permission obtained for the restoration of the Askernish links; one of Germany's most ambitious course developments, and a dramatic clifftop site is to be developed by Faldo Design in Madeira

### 23 The Player

Legendary English amateur Gary Wolstenholme sounds off about the excessive lengthening of classic golf courses

### 24 The Pioneer

Christoph Meister probes the legacy of Bernhard von Limburger, the godfather of German golf architecture

### 30 Collaborators will be...

Sharing makes for better golf, says Jeff Mingay

### 33 Pond life

How to keep lakes and ponds healthy and vivacious

### 34 The future of housing

Robert Day suggests homes alongside every fairway is not the best solution

### 54 On Site

The revised Duke's Course at St Andrews has been the source of some controversy; we visit and see for ourselves. Plus the impressive new Linna Golf complex in Finland, the revitalisation of Royal Cinque Ports at Deal, and an extra nine holes at Chateau des Vigiers in France

### 64 Holing Out

Steve Marnoch details the trials and tribulations of building one golf course in two countries

## Sponsors

With thanks to all the organisations that support *Golf Course Architecture*, including our 10 primary sponsors for issue six:

Founded in 1985, Carrick Design Inc. has become recognised for developing some of the best golf courses in Canada and Europe. The physical layout of the site and maintaining traditional values of the game are two important qualities that guide and influence all designs. [www.carrickdesign.com](http://www.carrickdesign.com)

Faldo Design is a leading international golf course architectural practice dedicated to designing outstanding golf courses. Established in 1991, it has completed projects in 12 different countries and is currently working in North America, Europe, the Middle East, the Caribbean and Asia-Pacific. [www.nickfaldo.com](http://www.nickfaldo.com)

One of the largest multi-disciplinary golf architectural practices in Europe, and known throughout the world, Hawtree's painstaking approach to layout saves money, preserves the existing character of the site, and ensures the contentment of a wide variety of golfer. [www.hawtree.co.uk](http://www.hawtree.co.uk)

Established in 1992, Jeff Howes Golf Design continues to offer its clients a professional, innovative and top quality golf course design service. Central to its design philosophy is respecting a sites' natural attributes/history whilst striving to achieve a finished product which is both challenging to players of all levels and fun to play. [www.jhgd.com](http://www.jhgd.com)

Kyle Phillips Golf Course Design has been appointed to design courses in more than 10 countries, including Kingsbarns Golf Links which has been recognised as one of the top 50 courses in the world. [www.kylephillips.com](http://www.kylephillips.com)

Niblick Golf Design is the result of a partnership between Graeme Webster and Brian Phillips, two of the most imaginative designers of golf courses in recent years. The Niblick Golf Design philosophy is to create an exiting golf course that fits the land, the eye and of course the budget. [www.niblickgolfdesign.com](http://www.niblickgolfdesign.com)

Rain Bird's sole focus since 1933 has been developing and manufacturing innovative irrigation products. Over 850 golf courses in 30 different countries in Europe benefit from the class-leading reliability and efficiency of Rain Bird PC-based control systems and sprinklers. Rain Bird's reputation, experience and expertise as the irrigation specialist are unmatched. [www.rainbird.com](http://www.rainbird.com)

Robert Trent Jones II, one of the pre-eminent firms worldwide, invites you to share its passion for our great game. The Robert Trent Jones II team is committed to creating spaces of the earth, for the spirit. [www.rtj2.com](http://www.rtj2.com)
