

Kiawah's Ocean Course is a fine example of Pete Dye's ability to make golf difficult but appealing

34

Pete Dye

With new courses in Isreal and at Pound Ridge and Sea Pines in the US either under construction or recently opened, veteran architect Pete Dye remains busy and vital. He tells us about his theory of design, and how his wife Alice is to blame for his most difficult holes!

44

Dangerous places

Hazards, whether in the formal sense of water or bunkers, or just places you really don't want your ball to go, define the game of golf. And a course on which they are poorly used is a frustrating, joyless place

50

Rolling and tumbling

The majority of golf shots are played on or around greens, so green design is central to the success of any course. But, as the pressure to increase green speeds grows, so the ability of architects to build interesting greens is reduced. Or is it?

GOLF COURSE ARCHITECTURE

Golf Course Architecture is published with the support and guidance of the European Institute of Golf Course Architects, the European Golf Course Owners Association and the American Society of Golf Course Architects.

European Institute of Golf Course Architects

The European Institute of Golf Course Architects has over 80 members and associates in 20 countries. It aims to enhance the status of the profession and increase opportunities for members to practise around the world.
www.eigca.org

European Golf Course Owners Association

The mission of the European Golf Course Owners Association is to provide services to support golf course owners in their aims, represent their interests on a European level and improve the golf business on a European level.
www.egcoa.eu

American Society of Golf Course Architects

Formed in 1946 by Donald Ross, Robert Trent Jones and others, ASGCA is the professional organisation of North American golf course architects. The 180 architects who have achieved membership in the prestigious group have designed some of the world's greatest courses.
